

Acute coronary syndromes (ACS) (to include type 1 and type 2 myocardial infarction)

Group-1

CAR AND MOTORCYCLE

! - Must not drive but need not notify the DVLA.

Driving may resume 1 week after ACS if successful coronary intervention (PCI) and if all of the following are met:

- ❖ No other urgent revascularization planned (urgent means within 4 weeks of acute event)
- ❖ LV ejection fraction is at least **40%** before hospital discharge
- ❖ There is no other disqualifying condition.

If not treated by successful coronary intervention or any of the above are not met, driving may resume only after 4 weeks from the acute event, provided there is no other disqualifying condition.

Group-2

BUS AND LORRY

X - Must not drive and must notify the DVLA – for all ACS.

License will be refused or revoked.

May be relicensed/licensed after at least 6 weeks if:

- ❖ LV ejection fraction is at least **40%**
- ❖ The requirements for exercise or other functional tests can be met
- There is no other disqualifying condition
